

Curriculum Vitae

1. Personal details

Surname	Do
First name	Quoc Trong
Citizenship	Vietnam
Email	trong.q.do.space@gmail.com
Current affiliation	Department of Astrophysics, Vietnam National Space Center (VNSC), 18 B Hoang Quoc Viet, Hanoi, Vietnam

2. Education

2025	Master's degree (M2) Programme: Nuclei, Particles, Astroparticles and Cosmology (NPAC) Institution: Université Paris Cité, Paris, France Date of degree certificate: 27 October 2025
2024	First year of Master's studies (M1) Programme: SPACE: Earth Observation, Astrophysics, Satellite Technology Institution: Joint programme by University of Science and Technology of Hanoi (USTH), Hanoi, Vietnam, and Université Paris Cité, Paris, France Date of completion (no degree issued): 04 October 2024
2023	Bachelor of Science Programme: Space and Applications Institution: University of Science and Technology of Hanoi (USTH), Hanoi, Vietnam Date of degree certificate: 11 September 2023

3. Language skills

Native language	Vietnamese
English	IELTS 7.0, date of certificate: 9th August 2023
French	DELF A2

4. Current employment

Employment period	01 November 2025 – 30 June 2026
Current job title	Research Assistant, Full time
Employer	Vietnam National Space Center (VNSC)
Short job description	Research project on the effect of dust grain alignment on polarization in the B335 class 0 young stellar object.

5. Previous work experience

2024–2025	Master 2 internship Title: “Systematic Search for Energy-dependent Morphologies in TeV Gamma-ray Sources” Institution: Laboratoire Astroparticule et Cosmologie (APC), Paris, France Supervisors: Dr. Bruno Khélifi and Dr. Kirsty Feijen
2023–2024	Master 1 internship Title: “The $f(R, T)$ gravity and application in cosmology to explain dark energy” Institution: Institute of Physics (IOP-VAST), Vietnam

Sep–Dec 2023	Supervisors: Assoc. Prof. Nguyen Thi Hong Van and Dr. Pham Van Ky Teaching Assistant Course: Introduction to Informatics Institution: University of Science and Technology of Hanoi (USTH), Vietnam
2022–2023	Bachelor’s thesis Title: “Analyzing synthetic dust polarization from prestellar cores to study the effect of grain alignment on the Davis–Chandrasekhar–Fermi method and polarization hole” Institution: Korea Astronomy and Space Science Institute (KASI), Republic of Korea Supervisor: Assoc. Prof. Hoang Chi Thiem
2022	Group project Title: “Molecular gas in the intense radiation field of Carina Keyhole” Institution: Max Planck Institute for Radio Astronomy (remote) Supervisors: Dr. Le Ngoc Tram, Prof. Karl Menten, Dr. Friedrich Wyrowski

6. Awards and honours

- France Excellence Scholarship of the French Embassy for the Master 2 programme in France (2024).
- Master Entrance Scholarship at USTH (2023).
- Simon Foundation grant for internship at Korea Astronomy and Space Science Institute (2023).
- First Prize, Vietnam Student Physics Olympiad for undergraduate students (2022).
- Second Prize, Vietnam Student Physics Olympiad for undergraduate students (2021).
- Merit Scholarship for excellent academic record at USTH (2022, 2023).
- Rector’s Certificate for outstanding contribution to USTH student activities (2021, 2022).
- Silver Medal, High School Physics Olympiad held by Hanoi University of Science (2019).
- First Prize, Province-level High School Physics Olympiad in Kien Giang Province (2019).

7. Skills

- Programming languages: Proficient in Python; Intermediate in C/C++, Fortran.
- Data analysis and visualization on observation and simulation data. Work experience with space-based and ground-based telescopes.
- Experience in simulation and computation.
- Hands-on experience with particle detectors.
- Operating systems: Linux, Windows.
- Experience in Latex for scientific writing.

8. Extracurricular activities

Nov. 2025	Participant of The 3rd International Workshop “Particles, Gravitation and the Universe: from Quantum Mechanics to Quantum Gravity” (PGU-3)
Nov. 2025	Participant of the Vietnamese Astronomical Society Annual Meeting (VASAM 2025)
Aug. 2024	Participant of VIASM Summer School in Mathematical Physics 2024
Aug. 2022	Participant of the VIASM Summer School on The Mathematics of Interacting Bose Gases
Jul. 2022	Participant of the SAGI Astrophysics Workshop on New Frontiers of Astrophysics in the Golden Era of Dust Polarimetry
Jul. 2022	Participant of the 6 th Vietnam School on Neutrinos (VSON) at International Center for Interdisciplinary Science and Education (ICISE)
